

LENNOX

The 16HPX is engineered for reliable performance that gives you

# COMFORT THAT LASTS

MERIT<sup>®</sup>  
SERIES

## 16HPX

MULTI-STAGE  
HEAT PUMP

Affordable, efficient cooling

# EFFICIENT AND AFFORDABLE

The 16HPX heat pump has efficiency ratings of up to 17.00 SEER and 9.5 HSPF\*, packing a lot of comfort into an affordable package.

EFFICIENCIES OF 14.00 TO  
**17.00** SEER  
AND 9.5 HSPF

The 16HPX has earned the ENERGY STAR® certification, which means it meets or exceeds guidelines set forth by the U.S. Environmental Protection Agency.

## PEACE-OF-MIND PROTECTION

The 16HPX comes with a 5-year limited warranty on the compressor and covered components.\*\*

\*The cooling efficiency rating for heat pumps is Seasonal Energy Efficiency Ratio, or SEER. The heating rating is Heating Seasonal Performance Factor, or HSPF. The higher the SEER and HSPF, the better the energy performance, and the more you save.

\*\*Covered components may be eligible to receive a 10-year limited warranty. Online equipment registration at [www.lennoxregistration.com](http://www.lennoxregistration.com) is required within 60 days of installation (except in California and Quebec) or Lennox' base warranty will apply. Applies to residential applications only. See actual warranty certificate for details.

Note: Due to Lennox' ongoing commitment to quality, specifications and ratings are subject to change without notice.

## COMFORT INNOVATIONS

### MULTI-STAGE OPERATION

Responding to changing conditions, the 16HPX adjusts to maximize energy savings—operating at lower speed most of the time, and ramping up during periods of increased cooling demand. This multi-stage operation also translates to enhanced humidity control.

### HUMIDITY CONTROL

Pairing your heat pump with a variable-speed furnace or air handler allows you to continuously maintain a slow circulation of air throughout your home, decreasing the amount of humidity in your home for improved indoor air quality and comfort.

### DUAL-FUEL-COMPATIBLE

When the 16HPX is installed with a compatible Lennox furnace, it creates a heating system that can switch back and forth between electricity and gas automatically, based on whichever is most cost-efficient for the weather conditions at the time.

*Innovation never felt so good.®*
